## Introduction

This one's gonna be short and sweet! If you've been trying to get an online business started, but just haven't had any success yet, have you asked yourself why?

Have you looked around, done research on the people who ARE being successful in their online businesses? If you haven't, you SHOULD!

Take a look at people like Allen Says, Paul Myers, Anthony Blake, Willie Crawford, Bryan Kumar, Cory Rudl, John Reese, and others and see if you can find the ONE thing they all have in common.

Let's not waste a bunch of time on that...I'll just tell you! **They all have their own products.** Sure, a lot of them are making some pretty good money telling their subscribers about other people's products now and then, but the heart of their business was originally, and still is, built around their own products.

Does that tell you something?

Sure, there are plenty of very successful affiliate marketers out there. People who KNOW how to make that business work for them...AND...they make some GREAT money! They don't have to put in the work to actually create a product, but believe me, the great affiliate marketers have to put in a LOT of work in order to make that great living!

But, what happens if the product you're making all of those affiliate commissions from suddenly disappears...falls off the face of the earth? What happens if the company starts having financial problems and can't pay affiliate commissions? OR, as happens much more frequently, you see that \$100 product you've been getting good commissions from suddenly show up on e-Bay for \$10.00!

We all know this happens, sometimes more frequently than it should. But, if you've built YOUR business on SOMEBODY ELSE'S product, then what can you do?

IF YOU DON'T OWN THE PRODUCT, YOU DON'T OWN THE BUSINESS! Conversely, if you DO own the product, you DO control what happens to YOUR business.

I'm sure you've thought about this...it's NOT rocket science or brain surgery! I'm just as sure that you've probably made plans, or at least, had thoughts of, someday, having your own product to proudly sell to the world. But, something is holding you back!

THAT'S exactly why I'm writing this book. Over the past 6-7 years, I've received, literally, 1000s of emails asking me the same questions:

"Can you help me write my own e-book?" OR, "How can I do the same thing you're doing?" OR, "I really want my own product like you, can you help me get started?"

I answered probably 99% of those emails with good, helpful advice for quite a while...but, as time went on the emails got more numerous. That's where this book comes in!

I distilled all of that advice, all of that experience, into these pages that you hold in your hand or see on your computer monitor. It's the sum total of what I'd tell you if you were sitting right here in my office discussing your business with me. The advice comes from all of the mistakes I've made along the way...AND learned from. It comes from my successes. It comes from my heart, because I'd TRULY like to see you succeed in your own business...I'd TRULY like to see you take control of your own future...your own family's future.

So...if YOU really want that...control over your own destiny...you can get started by learning how to create and produce your own e-book using this guide. Together, let's figure out what's holding you back, what you need to finally get started, and figure out which tools and instructions are going to get your first e-book out there where you can start making some money with it!

Hold on...things are gonna get real exciting here...it'll be fun, you'll see!

## **Get Ready...**

The very first thing you have to do before you get started creating your own e-book is:

### **GET RID OF YOUR STINKIN' THINKIN' !**

You have stinkin' thinkin' whether you know it or not. You MUST have, or you'd already have your own product out there being sold! Somewhere, somehow you've gotten it into your head that you can't write a book, or that you don't know how to put a book together, or that you don't have any good ideas for a book.

This book isn't really about changing your thought patterns, your beliefs about yourself, but I will tell you these two things:

**IF YOU THINK YOU CAN'T WRITE A BOOK, YOU'RE RIGHT!**

**IF YOU THINK YOU CAN WRITE A BOOK, YOU'RE RIGHT, TOO!**

It's TRULY up to you! If you think you can't, you won't; if you think you can, you will. I know it's "corny", but it's true.

You DO have a book in you...probably a LOT more than that, once you get yourself started. Everybody has a book in their head or can get one planted there!

I really don't care if you THINK you can't write a book...I KNOW that you can! You've talked yourself into the "fact" that you couldn't write a book if someone held a gun to your head.

YOU'VE done that...now, let's undo it!

Have you ever told your husband, wife, mom, dad, best friend... anybody!...a story or an idea and they got it? They understood what you were meaning to say and were affected by what you said...maybe they laughed, maybe they cried, maybe they agreed with you...maybe not! The important thing here is that they understood and reacted to what you told them.

What I'm trying to tell YOU here is that you're already writing a book, in a sense, every time you get an idea across to someone else.

Realize this: You're already writing book chapters almost every day... right now! Every time you get an idea from your head into someone else's head, you've just finished a sentence...a paragraph...a page!

### **When you look at it like that, can you write a book?**

Maybe you're one of those people who have to have everything perfect BEFORE you even think about publishing a book...are you? Well, the old story about Thomas Edison and his 1139 failures before inventing the light bulb comes to mind...but the best one is the Wright Brothers...good old Orville and Wilbur.

Did you know they put their first airplane all together...let everyone in Dayton, Ohio know that they were going to fly like bird...had a brass band hired and everything.

On the day they had announced, a HUGE crowd gathered...the band played...children ran around...people brought picnic lunches...newspaper reporters were there...a BIG deal! The airplane never moved an inch! Not one inch...as a matter of fact, the wings came off!

Know what? It didn't move the 2<sup>nd</sup> time either...or the 3<sup>rd</sup> time...OR the 4<sup>th</sup>! Talk about public failure!

They learned from their failures...especially since they were so public... and the 5<sup>th</sup> time they made history!

The point here is, what's the WORST thing that could happen if you wrote a book and it wasn't absolutely perfect?

It's an eye-opening experience to look at some of the e-books that are selling...right now...on the Internet. All you have to do is find one that, after you read it, you say, "MAN! Even I could do better than that!" But that book's selling and yours isn't because you're waiting to get it perfect! Don't get it perfect...get it out there!

To sum up this chapter, get rid of your stinkin' thinkin'...start saying to yourself, in your head...unless you want people to think you're really crazy...I CAN write a book! I KNOW I can!

Know that your brain is already writing books for you each day. All you have to do is figure out how to get it down on paper...and that's what this book is all about!

Get over that perfectionist stuff. It ain't never gonna be perfect...just like that grammar, but it gets the point across, doesn't it? Get your book as good as you can at the time, get it out there, see what happens and then test and tweak it till it sells. It's NEVER going to be completely perfect, but it can be profitable! So get ready, we're movin' on!
